

Keep Cats Safe & Save Bird Lives

Keep Cats Safe & Save Bird Lives is an initiative led by Nature Canada, the oldest conservation charity in the country. Over the past 75 years, Nature Canada has helped protect over 63 million acres of parks and wildlife areas in Canada and the countless species that depend on this habitat. Today, we represent a network of over 45,000 members & supporters and more than 350 nature organizations in every province across Canada.

Keep Cats Safe & Save Bird lives is dedicated to celebrating the contributions cats and birds make to our lives, our environment, and our communities, and aims to increase public awareness of the impact on both cats and birds of the common practice of letting cats free-roam outdoors.

By volunteering you can:

- Share your passion for cats, birds, nature and the environment
- Learn and gain practical experience
- Make a difference in your community

Volunteers can work at the local, regional or national level. If you're interested in one of the current opportunities listed below, contact us at info@catsandbirds.ca.
